

SUPERVISED

CC-900 CARE CALLER

WIRELESS LONG RANGE ENUNCIATOR • 900MHZ

Amazing Long Range Care Caller GETS HELP FAST! Pressing the pendant button signals the Enunciator and notifies Family, Caretakers or Nursing Staff until help arrives!

**GETS
HELP
FAST!**

Pendant can be worn on wrist, necklace, belt clip, carried in pocket or placed on nightstand or bedpost.

Wristband, necklace and belt clip included.

Enunciator is placed or mounted anyplace in home or facility. **Amazing Long Range** allows Care Caller to operate in adjacent neighbor's apartments or condo!

Range: Up to 1,000 Feet Indoors.

The Enunciator sound is selectable High or Low and emits a beeping sound when the pendant battery is low!

Now you can feel Safe, Secure and at Ease whenever your patient, family member or friend is confined to bed, home or just might need assistance. **Care Caller** detects the signal to call for help up to **1000 feet indoors** (it's been tested to have an open air range of nearly a mile!)

The **Enunciator** sounds the audible horn and flashes the strobe until caretaker resets it.

Simple and easy to use because **Care Caller** is **Wireless!** It installs in minutes, simply plug in the Enunciator, and you are ready to **Get Help Fast** when needed! So set your mind at ease, install the **CC-900 Care Caller** for a loved one, patient, or friend.

You'll be so happy you did!

Wireless Care Caller Gets Help Fast for loved ones and patients!

Great For...

Working safely in garden or yard.

Patient confined to bed.

Around home or facility.

Care Caller can monitor up to 10 900MHz Transmitters!

Aux. Output for Automatic Voice Dialer (optional)

How It Works:

1. Simply Press Pendant Button.

Pendant may be worn on wrist, necklace, belt clip or carried in pocket. Accessories included. Pendant is water resistant and can be worn in shower or bathtub.

2. Signal is sent to Enunciator. Horn and Strobe Alarms until help arrives and resets unit! (selectable high or low sound.)

Pendant activates Enunciator up to 1,000 ft. and may be located almost anywhere within range — even adjacent neighbor's apartment or condo!

3. Help Arrives!

ALL ECP 900MHz wireless receivers have the capability to supervise all ECP universal transmitters. They also have the ability to pickup low battery warning signals from these transmitters. Every 60 seconds the transmitter sends an 'I'm here' signal to the receiver. If not sensed by the receiver in a thirty minute period the alarm will sound. This means protection from low power, non-working transmitters or transmitters removed from the facility.
